12. At 1100 on 22 September, a train of 11 flatcars and 1 boxcar carrying 8 to 10 large track-laying vehicles with a chassis similar to that of a JS-1 tank and a pontoon-like superstructure was seen at the Eberswalde freight station. 9
1. Comment. A tank firing detail of the 10th Gds Tank Div which, according to railroad records, transferred to Wustrow on 6 September returned to its installation. 25X1
25X1
2. Comment. these were tank units, probably of the 219th Tank Regt of the 1st Mecz Div, which apparently transferred to the Neustrelitz area for firing practices. The observation of T-54 tanks confirms the existence of this type of tank with the division.
3. Comment. These were apparently AAA units of the 6th Gds Mecz Div. A shipment with elements of the 120 (?) AAA Regt of the division returned from Altengrabow to Barnau as early as 9 September. 25X1
25X1
4. Comment. Loading of additional units of the 32d AAA Div. 2 shipments from Kuestrin and 1 shipment from Frankfurt/Oder went to Baruth on 14 September. 25X1

5. Comment. These were presumably tank details of the 7th Gds Mecz Div from Frankfurt/Oder, which went to and returned from, Lieberose. 25X1
6. Comment. These were apparently shipments with equipment of rear service elements of the two brigades of the 34th Arty Brig from the Altengrabow summer camp. These unloadings tend to indicate that the artillery units of the division, possibly after final exercises, will also return to their winter quarters in Potsdam soon. 25X1
7. Comment. 2 shipments went from Eberswalde to Altengrabow on 12 September. The present information tends to indicate that the load of these trains included AAA units of the Fourth Gds Mecz Army or the 6th Gds Mecz Div. 25X1
8. Comment. Including this shipment, the 124th Hv How Arty Brig has turned in some 78 old prime movers since late February 1955 in exchange for 85 new prime movers with T-34 chassis. Some of the old prime movers were transferred to other artillery units in the zone. 25X1
9. Comment. Elements of the u/i unit with track-laying amphibious vehicles from the Schuetzen Kaserne (4342) in Eberswalde may have been entrained. On the same evening 2 engineer shipments with DUKW-353 amphibious vehicles, west of Berlin en route toward the south. 25X1
